

Welcome to our new DOM faculty members! There are 74 new faculty, with 60 at UCSF Health, 8 at ZSFG, and 6 at VAMC. Our new faculty are a vital source of energy and innovation, and we are confident that they will take UCSF and our department to even greater heights. See the list of new faculty and orientation dates below.

To all new faculty members:

Welcome to the UCSF Department of Medicine! It is my pleasure to invite you to our first ever DOM Welcome Orientation and panel discussions via Zoom. The orientation is focused primarily on our department – some basics on who we are (number and type of faculty, reputation/honors/activities, leadership structure, etc.), our mission and vision as a department, our current departmental projects, and what faculty need to know to be successful within DOM (key golden rules of our department, the role of the Division Manager). The panel discussions will allow you to hear from recently promoted associate professors on their top tips for thriving at UCSF. For your convenience, the orientation will be offered twice, covering the same content, only differing in date. The panel discussions however will be different with one geared more for researchers and the other for clinician educators. Please feel free to attend whichever orientation and panel discussion that will suit you best, or both if you prefer. We strongly encourage attendance at this orientation and panel discussion; please work with your Division Chief and Manager if you have any scheduling conflicts or concerns.

We would also like to gift you with your very own UCSF DOM jacket so please indicate your jacket size when you RSVP to the orientation through the link below.
