

Dear Colleagues,

I am very pleased to announce that **Leonard Telesca** will be joining the division as our new division manager, effective March 15!

Leonard is currently the Division Manager of Infectious Diseases at UCSF Health. He joined the division in 2019, and has been focused on managing finances, leveraging technology to achieve efficiencies, and enhancing employee/learner recruitment, retention, and satisfaction. In 2017, Leonard joined UCSF via the School of Dentistry where he managed the Periodontology and Oral Medicine clinics. His primary areas of focus were managing cash flow, improving the patient experience, and standardizing workflows.

Leonard graduated from Drew University with a Bachelor's degree in Neuroscience. He began his career at HealthpointCapital, LLC – a private equity firm focusing exclusively on the musculoskeletal healthcare sector. Leonard traveled to California with HealthpointCapital to work with one of their portfolio companies, MicroDental Laboratories, and ended up spending nearly a decade with MicroDental in a variety of roles, most notably as the Director of Service Operations where he managed the account management team, the technical services team, and the premier product line.

Leonard is currently pursuing a Master's degree in Organizational Development from University of San Francisco with an anticipated completion date of 2022.

I thank the selection committee comprised of Calvin Kwok, Linda Yee, David Erle, Lorri Leard, Rupal Shah, Prescott Woodruff, and DOM central managers for their help with the recruitment process. Please join me in welcoming Leonard to our team!
